Interlude

We are here to try to build a thriving community of people who trust us and support those who need it. We are not asking people to just throw money into risky project on the contrary we realise we first have to gain the trust of investors, especially in a space, where trust has become very scarce.. This is our attempt to help repair what little we can and to bring a safe and lucrative return for those in whom we have gained their trust. We truly want you to feel safe and comfortable. We are calling any sceptics or those who just want to give up on this space to give us a chance. Let's unite and MAKE BSC GREAT AGAIN

Welcome to the XRPP whitepaper v1.0.0.

In this document, you will find details that outline the fundamentals of this contract, along with our use cases and long-term goals. As the project progresses, this document will be extended to ensure transparency within our community.

Be sure to keep updated with the pinned messages in our Telegram group (<https://t.me/XRPPBSC>) for future versions of this whitepaper.

INTRODUCTION

In this space of constant rug pulls and honeypots we are fed up. All of us on the team been burnt and heard the saddest stories of so many people that have lost so much because they trusted the wrong people. We are tired and saddened by what we have seen and realised that maybe we could do our part, albeit a little part, but we want to be able to bring people back into a safe community where they can trust that when they wake up in the morning they will still have their investment available and even more with inflections and we want to have a lot of fun on the way

OUR VISION

We want to build something very nice for everyone so that everyone can win and to show people what can be done if we all work and stick together to be honest and to build something that will bring trust back into the BSC environment

OUR MISSION

To aim for Mars, I mean why limit ourselves to the moon, but in the process we want to enjoy the journey with a solid team and ecstatic investors who are proud that they came along with us for the ride.

OUR CORE VALUES

To provide an ethical and honest space where we can be trusted. The success of this project has come because of our willingness to see people as people and not just as potential investors. Honesty and integrity in this space is our core value and we endeavour to prove that we, as the team in this space, are indeed working for the community and not ourselves. These core values guide our behaviour as we work together to complete our mission to Mars

OUR COMMITMENT TO OUR HOLDERS

We promise:

To return your trust with transparency, we will be open and honest and will endeavour to answer any question or talk into any concern you may have across all aspects of this our token XRPP.

To keep pursuing ways and listening to advice of the community that not only helps us achieve our goals but yours too.

To strive to make the best decisions with the wisdom in which we have at the time to yield the best return from your investment in us.

To redefine what a community expects from its team based on your, the community's requirements

To operate in a spirit of inclusiveness and provide the opportunities to those who would like to step up and be a part of something with us

To remain positive in a space that pushes negativity and endorses FUD. In fact we endeavour to have such an awesome trusting community that if FUD does enter then it will be seen and diminished not by us but by a community that is fully behind this project.

To respect others ideas, We understand that others may have visions or ideas as to how to achieve something.. We strongly encourage ideas to come forward as there is no stupid idea, not having something

TOKENOMICS

Supply: 100,000,000,000 🏠

Decimals: 18

Max Wallet: 2,000,000,000 💰

Max Transaction: 2,000,000,000 🏠

LP Locked 🔒

Taxes for XRPPancake: (Total:16%)

5% Panacke Reflection Fee

5% XRP Reflection Fee ✕

3% Liquidity Fee 🗨️

3% Marketing Fee 📈

CONTRACT TAKEAWAYS

The Token is designed in a way to reward the community of holders as they are rewarded very generously on every transaction

Large stakeholders are deterred from dumping large amounts of tokens with a maximum sell of 2,000,000,000 and with an increasing tax on more than one sell. The testimonies of many holders attest to the fact that holders are very pleased with the amount of rewards they are receiving. With our mission to head for Mars we are trying to encourage the community to just trust us and stay with us where finally the true Diamond hands can be rewarded.

SECURITY OF YOUR INVESTMENT

We have made a huge attempt to prove our commitment to our community by locking the liquidity

Further information can be found here

We welcome any question regarding any part of the contract to ensure your trust is achieved in us, we also understand the responsibility we have in maintaining your trust.

The contract is verified on BscScan, with Liquidity being generated on every transaction.

The marketing wallet will only be used to facilitate the operational efforts in growing XRPP. Please feel free by watching us on BSC scan and holding us accountable. If you see anything suspicious reach out to us and we will answer any query

HAS THE TEAM REVEALED THEIR IDENTITIES?

If you have not yet met Acty or heard his lovely voice please jump into VC, <https://t.me/XRPPBSC> , hang out and listen to his calming voice. For those of you who have come to know Acty you will realise the reason his team has been working so tirelessly in trying to make this project successful. If you have not yet listened to his AMA please do that before investing as it will become very clear why we are doing what we are doing. <https://xrpancake.com/>
